A.R.P. - CONSTRUCTION OF SLIT TRENCHES.

In enclosing a copy of the note by the Assistant A.R.P. Officer (Engineering), I have the honour to request that in the circumstances explained in the note, the special rate of Rs.0-5-6 to Rs.0-6-0 per cubic yard suggested may kindly be sanctioned in respect of earth work excavation for slit trenches.

I have the honour to be,
Sir,
Your most obedient servant,
N. Madhava Rao

KVN. A.R.P. Controller.

8/22/4/42

Note by the Assistant to Special A.R.P. Officer, dated 22-4-1942.

Subject:- RATE FOR EARTHWORK EXCAVATION.

The excavation of slit trenches including the formation of spoil watering and light tamping was being paid at Rs.0-5-6 per yard. None of the contractors are prepared to work at this rate as the wadder labour is engaged ~~xx~~ on private work at Rs.0-8-0 per yard. of excavation. The slit trench excavation has almost come to a stop and the Divisional Wardens also report that it is not possible to work at this rate. After the Rangoon lessons it has been advised not to form any earth banks on the sides as they show themselves out very clearly from the aircraft.

Solicit instructions to raise the rate for mere excavation to Rs.0-5-6 to Rs.0-6-0 per cubic yard depending upon the soil.

The City Municipality and Bangalore Division rates vary from 3 to 5 annas per cubic yard of excavation. But considering the dearth of labour and the summer conditions the rate suggested above may kindly be approved.

With reference to your letter No ARP 608 of 22nd April 42 on the above subject. I am directed to state that the rate of 4 1/2 as per cubic yard is reasonable in respect of earth work excavation for slit trenches since the above rate is admissible in the estimates that are being approved by the C E's Office.

I am also to say that the question of revising the rate of 0-5-6 in other Provinces

.....

.....

SPARE COPIES.....

CONSTRUCTION OF SLIT TRENCHES - COST OF.

REF:- No.3439/W dated 12-6-1942 P.W.W

With reference to your above letter sanctioning a rate of 4½ annas per Cubic yard of earthwork excavation, I have the honour to state that bills for earthwork excavation were paid at 5½ annas and 6 annas per Cubic yard pending orders from Government and this slightly increased rate had to be paid as a large number of slit trenches had to be excavated in different parts of the city and contractors were not readily coming forward to excavate trenches at a low rate.

The Controller has now returned the slit trench bills presented after the above order observing that Bills already paid at the rate of 5½ annas and 6 annas may now be recalculated at 4½ annas per Cubic yard and the excess amount already paid be deducted ~~out~~ from the present bills. In view of the fact that some of the contractors have already been paid at 5½ annas to 6 annas a Cubic yard and there is no possibility of recovering the excess amount already paid, I recommend that the special rates at 5½ annas and 6 annas per cubic yard may be sanctioned for works undertaken and completed

prior to this Government Order. All works undertaken after the date of Government Order will be paid at 4½ annas per cubic yard.

I have the honour to be,

Sir,

Your most obedient servant,

A.R.P. Controller,
Bangalore City.
